## International Fire Code 2006

*\*Excerpted from 2006 International Fire Code*

### Section 105 Permits.

Permits will be issued in accordance with Section 1051.1 through 105.7.13, as referenced in this document.

### Section 105.1.1 Permits Required.

Permits required by this code shall be obtained from the Fire Code Official. Permit fees, if any shall be paid prior to issuance of the permit. Issued permit shall be kept on the premises designated therein at all times and shall be readily available for inspection by the Fire Code Official.

### 105.1.2. Types of Permits

There shall be two types of permits as follows:

1. Operation Permit.  
An operational permit allows the applicant to conduct an operation or a business for which a permit is required.
  - 1.1. A prescribed period
  - 1.2. Until renewed or revoked.
2. Construction Permit  
Allows the applicant to install or modify systems and equipment for which a permit is required by section 105.7

### 105.6 Required Operational Permits

The Fire Code Official is authorized to issue operational permits for the operations set forth in section 105.6 through 105.6.46.

Examples of operational, one time, yearly, and construction permits:

Annual expires 12/31 of each year: Expires 12 months from issue of permit

### Category 1: *(Identified as target fire hazards)*

\$85.00 annual operating permit / inspection fee

- Aviation facilities / aircraft refueling vehicles, service facilities or repair facilities.
- Tire storage as allowed by the Fire Code

### Category 2:

\$85.00 one time event permits

- Blast operations (each site) 1-30 days
- Exhibits and trade shows
- Fireworks (each location)
- Places of assembly (special events)
- Tents and canopies
